PRAESID

PROTECTION & FIRST AID MODULE

MODULE GUIDE

Protect your family when every minute counts

WHY THIS MODULE MATTERS

When facing cold, injuries or evacuation, initial protection can make all the difference. This module helps retain warmth, keep you visible and provide first aid while waiting for emergency services.

- Protection for the whole family
- First aid within reach
- Visibility for adults + child

MODULE CONTENTS

Thick blankets	Retain warmth and provide comfort for the whole family.	3
Ponchos	Lightweight, compact protection against rain and wind.	2
Warm hats / gloves	Help reduce heat loss while waiting or evacuating.	2 / 3
First aid kit	Essentials for cleaning, protecting and dressing common injuries.	1
Eyewash solution	250 ml for quickly rinsing dust or debris from the eye.	1

Reinforced tape	100 m of tape for securing, sealing or making temporary repairs.	1
High-visibility vests	Keep two adults and one child visible while on the move.	2 + 1

Essentials organised for quick access and easy use when every minute counts.

Inside the first aid kit

- 14 assorted adhesive dressings: four 10 × 6 cm, two butterfly, two finger 12 × 2 cm, two strips 1.9 × 7.2 cm and four strips 2.5 × 7.2 cm
- 4 DIN pressure dressings: 1 K, 2 M and 1 G
- 1 burn dressing and six 10 × 10 cm gauze pads
- 5 stretch bandages and 1 triangular bandage
- 1 roll of adhesive tape and 1 pair of scissors
- 1 emergency blanket, 210 × 160 cm
- 4 disposable gloves and 2 alcohol-free wipes
- 2 three-ply medical masks and 1 first aid leaflet

During use

- First aid does not replace assistance from emergency services.
- Do not reuse the eyewash solution after opening.
- Fit the FFP2 mask carefully over the nose and face; do not reuse it.

Cover • Protect • Stay visible • Give first aid
