TOOLS & REPAIRS MODULE

MODULE GUIDE

The right tools for the unexpected

WHY THIS MODULE MATTERS

A breakdown, a shelter that needs securing or a temporary repair may call for simple, reliable equipment. This module provides tools for cutting, fastening, lighting a fire and recording useful information.

Cut + secure + ignite

10 m multipurpose rope

4 essential tools

MODULE CONTENTS

Multi-tool Pliers, knife, saw and screwdriver in one compact tool.	1
Electric lighter USB rechargeable; up to 50 ignitions per charge.	1
Rope with carabiners Strong rope with two carabiners for securing and tying down equipment.	10 m
Notebook and pen Record contacts, messages, times and important information.	1

Essentials organised for quick access and easy use when every minute counts.

Getting ready

- Test the tool and lighter, then recharge the lighter.
- Write down contacts, medical treatments and useful information in the notebook.
- Learn a few simple knots before an emergency occurs.

During use

- Keep blades, tools and the lighter out of children's reach.
- Do not use the rope for climbing, belaying or rescuing people.
- Keep the lighter away from flammable materials and do not use it in the rain.
